

BOXNET

Width	Height	Length	Weight	Hanging Kit
100cm	150cm	210cm	390g	4x hooks and cord attached
160cm	150cm	210cm	625g	4x hooks and cord attached

"I'm off travelling and will need a net once or twice during my trip. I'll probably be sleeping inside, so hanging won't be a problem and I'm on a tight budget. Quality's got to be there, though ..."

MICRONET

Width	Height	Length	Weight	Hanging Kit
100cm	160cm	210cm	260g	Hook & cord attached. Glass fibre spreader
160cm	160cm	210cm	375g	Hook & cord attached. Glass fibre spreader

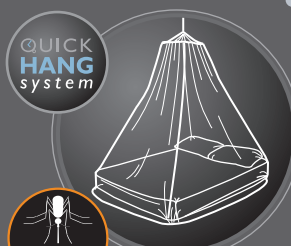

"I'm backpacking around the world and I'm likely to be going through some tropical and potential malarial regions. I need a tough, lightweight net which is simple to put up and packs down small. It also needs to have long life impregnation ..."

DUONET

Width	Height	Length	Weight	Hanging Kit
8.5m circumference		210cm	570g	Hook & cord attached. 2x spreader poles

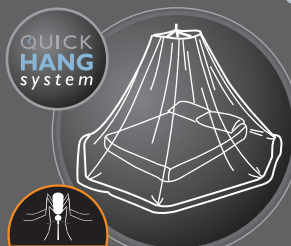

"I'm travelling with my wife across Africa and we're likely to be staying in hostels and hotels. We'll need a roomy mosquito net for a bigger bed, and it has to provide maximum protection from biting insects and be easy to hang ..."

HOOPNET

Width	Height	Length	Weight	Hanging Kit
12m circumference		240cm	800g	Hook & cord attached. Sprung hoop spreader attached

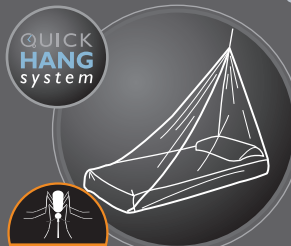

"We're spending 3 weeks in a jungle lodge in the rainforest and I need a spacious net for our room. Because we're using the lodge as a base and not travelling around size and weight are not a problem, and we'd like something airy for the humid climate. The net must have long life impregnation. A single hanging point would be ideal ..."

EXPEDITION ULTRANET

Width	Height	Length	Weight	Hanging Kit
85cm	135cm	200cm	220g	Hook & cord attached

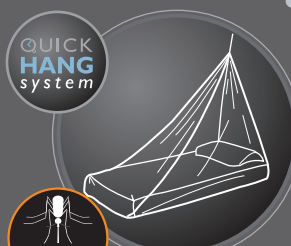

"Trekking and Backpacking across Northern Asia and into China for 3 months. Space and weight are an issue as I'm carrying all of my own kit in my rucksack. I'm going to need a really tough, simple net for hostels and sleeping under the stars ..."

EXPEDITION SOLONET

Width	Height	Length	Weight	Hanging Kit
110cm	180cm	210cm	390g	Hook & cord attached. Single aluminium spreader bar

"It's my gap year and I need a net for a variety of different reasons. I'm likely to be going on a few treks and maybe into the jungle. At some point I'll definitely be going through a malaria risk region. I really need the toughest, roomiest solo net there is. It must be packable and also have long life impregnation ..."

EXPEDITION RIDGENET

Width	Height	Length	Weight	Hanging Kit
120cm	150cm	225cm	350g	Hooks & cord attached

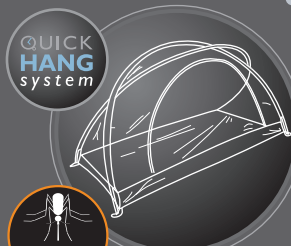

"I'm on an overland expedition to North Africa and I need a net for a outdoor use and occasional indoor use. Hanging must be versatile - to the side of a vehicle, between two trees etc.. The mesh must be toughened and the impregnation must be long life as I'll need to wash the net a fair bit. It also needs to pack down small ..."

EXPEDITION GEONET

Width	Height	Length	Weight	Hanging Kit
90cm	75cm	215cm	350g	4x pegs. 2x aluminium 6NO1 poles

"On a summer expedition to the Alps and I'll need a net that I can put up outdoors with no hanging points. It's got to have a tough, waterproof groundsheet, a quality mesh and needs to pack up smaller than a tent. It will also need long life impregnation ..."
